The Star says the president is preparing to depart from Washington for a summer vacation. His plans have been arranged and it is expected that he will be able to get away in a day or two. He will go to New York state and betake himself to the woods for a few weeks to get away from the worry and bother of the office seekers and politicians. His plans have been made very quietly and he will probably leave as soon as the appointed time arrives without making any previous announcement. The president wants a period of perfect rest and does not propose to be followed into his retreat.

NO EXTENSION GRANTED.

The following letter explains itself:

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
WASHINGTON, D. C., July 8 '85.

To the Commissioner of Internal Revenue;

SIR: This office is in receipt of your letter of the first inst., relative to the application of Mr. ——, for an extension of seven months, from June 25, 1885, on his transportation bond, dated January 16, 1885, covering 527 barrels of whisky withdrawn from the distillery warehouse. The applicant alleges that the present condition of the market for American whisky in Europe is depressed and that the outlay for the transportation and exportation of this whisky at this time would entail great hardships. You express the opinion that the time of 7 months allowed by the bond under the provisions of circular, No. 292 of January 3, 1885, was ample for the transportation of such whiskey from the place where it is deposited [Cynthiana, Ky.] to the port of New York, and that no additional time should be granted. This office concurs with you in the above opinion and you are requested to instruct the collector of internal revenue holding the bond, accordingly. The application submitted with your letter is returned herewith.

Very Respectfully,
CHAS. E. COON,
Assistant Secretary.

AGRICULTURAL CONVENTION.

The agricultural convention was called to order by Hon. W. F. Switzeler, of Missouri, and Commissioner Coleman was chosen temporary secretary. A committee on credentials was named. Commissioner Coleman made the opening address of welcome. After the conclusion of the commissioner's opening address, the temporary officers were made permanent. Commissioner Coleman this afternoon announced that he had received a letter from Miss Cleveland, of the executive mansion, which he did not think was intended as a private communication. He said Miss Cleveland had manifested a laudable interest in one of the industries in which the country was interested. The letter read as follows:

EXECUTIVE MANSION,
WASHINGTON, D. C., July 8.

I venture to ask if the subject of silk culture in the United States is one which will receive attention from the agricultural convention. I find myself feeling a deep interest in this industry, not only because it seems right and fitting that we should produce our own silk in successful competition with the old world, but because this industry, when so established, as it may be by the encouragement of the government, will afford one more avenue of self-support to women. I am sure you desire with me to see such avenues increased in worthy and legitimate ways. I am hoping to have the pleasure of visiting your bureau before long. Very truly yours,

ROSE ELIZABETH CLEVELAND

The letter was received with applause and the following resolution was unanimously adopted:

"Resolved, That this convention has listened with pleasure to the sentiments expressed by Miss Rose Elizabeth Cleveland in her letter addressed to Commissioner Coleman on the subject of silk culture in the United States- that we are in sympathy with these sentiments and tha Miss Cleveland is most cordially invited to honor this body with her presence and to ake part in its deliberations."

Mr. K. Iamari, the Japanese official commissioner of the world's exposition, was introduced and spoke of the agricultural resources of Japan. A recess was then taken.

NOTES.

The court-martial appointed to try Paymaster General Smith, of the navy, convened to-day. The charges on which the paymaster general are to be tried are scandalous conduct tending to the destruction of good morals, culpable inefficiency in the performance of duty.

Dr. Hamilton, surgeon general of the marine hospital service, has been advised of what is regarded as a sporadic case of yellow fever at New Orleans. He does not think that this should cause alarm, although no evidence has been discovered that it originated in the importation of fever germs. He thinks that there can be no doubt that it is due to yellow fever imported in infected clothing, or in some other way. The case was effectively quarantined at the earliest stage, and it is not expected that the fever will spread from it.

The president this afternoon appointed the following cadets-at-large to West Point: Don Carlos Buel, Nadra Sykes, F. D. Hatch, Thos. Newton, L. H. Ruggles and E. M. Cleary. Buell is a son of the late Col. Geo. P. Buell and a nephew of Gen. Don Cameron Buell. Sykes is the son of Major-General Geo Sykes. Hatch is the son of Colonel Hatch; Newton the son of General John Newton, chief of engineers, and Ruggles the son of General Ruggles, assistant adjutant general of the army. Young Cleary is the son of a business man of Washington. He personally presented his request to the president for the appointment and impressed him so favorably that he determined to grant his petition. There is not a single paper on file in recommendation of the appointment.

Judge McCue, solicitor of the treasury to whom was referred the evidence taken in the investigation of the charges preferred against Russell B. Harrison assayer in charge of the United States government at Helena, Mont., has made report to secretary of treasury in which he exonerates Mr. Harrison. W. P. Lowner, who was sent to make the investigation, speaks in high terms of the system used in the office. The solicitor's report is satisfactory to the secretary of the treasury. Harrison will be so notified.

Fire Record.

By Cable to The Sentinel.

LONDON, July 9.—The Welsh university college at Aberystwith, the market town and seaport of Wales, was burned this morning. The building cost $100,000.

BURNED TO DEATH.

LOUISVILLE, July 8.—The Louisville asphalt works, at Jackson and Merriwether streets, owned and managed by a stock company, of which Louis Collins is president, burned at 4 o'clock this afternoon. The loss is $5,000; insured for $1,500. John E. Pittman, the foreman, was fatally injured. One of the tanks exploding, the contents scalded him about the body and shoulders. He was removed to the hospital and will die. Pittman was a single man and lives at 523 Fifth street. J. C. Harris, a colored man, was also so badly burned that he will die. The fire was occasioned by the ignition of the gaseous vapors settling around the works, the hands having failed to draw the fire under one of the tanks.

LOUISVILLE, July 8.—The large mill connected with S. Barmore & Sons ship yards, in Jeffersonville, opposite this city, burned at 1 o'clock this morning. The loss is estimated at $50,000, and is only insured for a small amount. The fire originated in the mould loft, and everything was ablaze before an alarm could be turned in. About 150 men are thrown out of employment by the fire. The mill was one of the largest in the west. Barmore has been very unfortunate, being twice burnt out before, but always came. Two large boats under construction were saved by the efforts of the employes. A large lot of lumber was also burned.

A DARING JOB.

Daylight Robbers Get $1,000 Cash.

By Telegraph to The Sentinel.

CHICAGO, July 9.—Two men, by representing themselves as plumbers, obtained admission to the residence of Thomas Smith, when his wife was alone in the house. When they reached the kitchen they knocked Mrs. Smith down and gagged her and stole $1,000 from a wallet on her person. While this was going on, the door bell was rung by visitors. One of the robbers went to the door and told the callers that Mrs. Smith was ill and could see no one. After discussing different methods of killing Mrs. Smith they went away. An hour later she gave the alarm, but as yet no clue has been found to the robbers.

EXHAUSTED.

General Grant Sleeps Profoundly.

By Telegraph to The Sentinel.

MT. MCGREGOR, July 9.—General Grant last night slept the sleep of extreme fatigue and four hours, between 11 o'clock p. m. and 3 a. m., were passed without an instant of wakefulness. He would have slept on then had not Dr. Douglas awakened him to give him food. His throat was painted and cleansed and the general at once fell into a sleep that continued without interruption until 6 o'clock this morning.

Rev. Father Dridier, of Baltimore, called on the general this afternoon. In response to the priest's statement that they were all praying for him he wrote, "Yes; I know and I feel very grateful to the Christian people of the land for their prayers on my behalf. There is no sect or religion as shown in the old or new testament to which this does not apply. Catholics, Protestants and Jews, and all the good people of the nation of all politics, as well as religion and all nationalities seem to have united in wishing or praying for my improvement. I am a great sufferer all the time, but the facts I have related are compensating for much of it. All I can do is to say that the prayers of the good people may be answered so far as to have us all meet in another and better world. I cannot speak even in a whisper.

"U. S. GRANT.

July 8, 1885."

The event of the afternoon was a visit to the mountain of the Mexican editors who were presented to the general by E. H. Talbott, of Chicago. Senor Arroyo De Anda addressed the general, saying they could not pass so near without paying their respects to one who had done so much for his country and for the promotion of good feeling between the two republics. In response, General Grant wrote as follows:

"My great interest in Mexico dates back to the war between the United States and that country. My interest was increased when four European monarchies attempted to set up their institutions on this continent, selecting Mexico, a territory adjoining. It was an outrage on human rights for a foreign nation to attempt to transfer her institutions and her rulers to the territory of a civilized people without their consent. They were fearfully punished for their crime. I hope Mexico may soon begin an upward and prosperous departure. She has all the conditions; she has the people; she has the climate, and she has the minerals. The conquest of Mexico cannot be any easy task in the future."

The party banquetted at the hotel and returned to Saratoga this evening. The General was much fatigued by the reception and retired at 7 o'clock. At midnight he was fast asleep.

A TORNADO

Rages Fiercely in the Northwest.

By Telegraph to The Sentinel.

ST. PAUL, Minn., July 9.—Specials just received say that a terrific wind and rain storm visited western and southern sections of this state last evening. In some places the storm took the shape of a tornado and destroyed everything in its path. The crops suffered most. So far no casualties are reported. At Sparta farm houses and barns and several churches were badly damaged. Fourteen cars at the St. Paul depot were blown from the track, and several others derailed at the Northwestern depot.

At Allegan, Mich., the storm was very fierce. In central and northern Illinois there was a tornado, and in Wisconsin it was damaging. At Oshkosh a church was destroyed.

OSKALOOSA, Iowa, July 9.—The greatest rainstorm for many years raged here yesterday. Over five inches of water fell. Many bridges are washed out, the bottoms overflowed and Englands new business block is completely wrecked, and a man caught in the fall and slightly injured.

CHICAGO, July 8.—Reports of wind storms over a large part of Wisconsin, amounting in some places to disasterous cyclones, are being received tonight. The telegraph wires between Milwaukee and St. Paul are all down, and the service generally northwest of here is so demoralized by the storm that few particulars have been ascertained. The wind here is rapidly rising to a gale accompanied by fierce flashes of lightning and heavy thunder. The day has been oppressively hot.

CHARLESTON, S. C., July 8.—The governor instructed the superintendent of the penitentiary to investigate the charges of cruel treatment of the convicts working on the railroad. The official report just made shows that sixteen deaths have occurred since January 1 out of a total force of about 120 convicts; that seven are unable to work; that the convicts are required to march nearly three miles to work with shackles on their legs; that on the occasion of bad quality food, scurvy has made its appearance, and that there has been excessive cruelty in punishing the convicts. In describing the effect of the beating of Henry Borter, by A. W. Jackson, who had temporary charge of the convicts during the absence of the regular overseer, Dr. D. S. Pope, the penitentiary physician, says: "Tissues have been sloughed, leaving an open sore eighteen inches long by ten inches wide. I doubt his complete recovery." Jackson, the inhuman guard, has fled to Georgia, but efforts are being made to secure his arrest.

CLEVELAND, Ohio, June 9.—The central police station is full of patrolmen and outside stands two four-horse busses, which are to convey the men wherever needed, and at the city armory a detachment of the Greys, light artillery and fifth regiment O. N. G. are on duty ready to move on call. At 9 o'clock news reached the central station, from the eighteenth ward that a procession of strikers, making over 1,200, had just left and were marching towards the city quietly and orderly. The men composing the procession all carry clubs, but they are evidently undecided what to do or where to go. There is no outbreak yet, though forty policemen have been sent in omnibusses to the screw works on Cass and Payne avenues.

CHOLERA is rapidly moving westward and will soon appear in this country. In order to prevent disastrous effects from its ravages every preventive should be employed, and the system should be in perfect condition. At this season of the year the system is in a weak state and easily susceptible to dangerous disease. Pain in the back, weariness, lassitude, headache, dyspepsia, indigestion, kidney and liver complaints are but the result of neglect. During the last visitation of cholera to this country no medicine was found equal to Mishler's Herb Bitters, both as a preventive and cure, and it has been equally successful in all the diseases above mentioned. It renews and invigorates the blood, restoring to health and strength, and thus shielding the system from disease.

JOURNAL of PROCEEDINGS

Of the Common Council of the City of Fort Wayne.

ADJOURNED SESSION, JULY 1, 1885.

[Continued.]

RESOLUTION AND DESCRIPTION OF LOTS AND LANDS RELATING TO THE CITY LIMITS.

Be it resolved, That the Common Council of the city of Fort Wayne do petition the board of commissioners of Allen county, Indiana, at their first regular meeting after due notice by publication, for the annexation to the said city of the lands and territory not laid off in lots contained in the list hereto attached, and that the city civil engineer be and he is hereby directed to file therewith his verified maps and survey of said lands and territory and that due notice of the pendency of said petition be given to the owners of said lands and territory by publication in THE FORT WAYNE DAILY SENTINEL, said petition to be as follows:

To the Honorable Board of Commissioners of Allen County, State of Indiana:

Your petitioners, the mayor and common council of the city of Fort Wayne, do respectfully petition your honorable body to annex to the said city of Fort Wayne the lands and territory set out and fully described by metes and bounds, with names of owners, in the list filed herewith and marked Exhibit "A." All of said lands and territory are contiguous to said city and not laid off in lots, and the owners will not consent to the annexation thereof. The reasons for the annexation thereof are because the growth of said city and her business interests require it. The vicinity adjacent to said lands and territory is thickly populated and greatly in need, as well as said territory itself, of streets, alleys and sidewalks, which ought to be opened and constructed through and upon said lands and territory. That public health and convenience require that said lands and territory should be under the jurisdiction of said city in order that the same may be drained by sewers and ditches and lighted with gas, and it is necessary the city should have jurisdiction over the same for the purpose of enforcing ordinances and police regulations for the protection of property and persons and for the peace and welfare of the citizens of said city. That petitioners have filed herewith and made a part hereof the plat and maps of said lands and territory, duly verified and marked Exhibit "B." HERMAN MICHAEL.

Which resolution was on motion adopted by the following vote: Ayes, 17, viz: Councilmen Dochrman, Gocke, Kelker, Kensill, Kramer, Lincoln, Michael, Mohr, Prentiss, Racine, Read, Scheid, Storm, Schwartz, Tresselt, Wessel and Woulfe. Nays, none.

Sick Headache.

Thousands who have suffered intensely with sick headache say that Hood's Sarsaparilla has completely cured them. One gentleman thus relieved writes: "Hood's Sarsaparilla is worth its weight in gold." Reader, if you are a sufferer with sick headache, give Hood's Sarsaparilla a trial. It will do you positive good. Made by C. I. Hood & Co., Lowell, Mass. Sold by all druggists. 100 doses one dollar.

Findlay, O., now gets 2,500,000 feet of natural gas every day.

Standard subjects for the American joker are boarding-house hash and the mother-in-law. There is no joke, however, in dyspepsia or kidney disease. Mrs. Martin Phillips, of Westfall, N. H., was a victim of the former disease, and she suffered very much. Food was repugnant to her, and when she tried to eat the most delicate and tempting morsel nausea and vomiting were sure to follow. The poor woman was in despair, when she read accounts of the marvelous cures wrought by Mishler's Herb Bitters. She purchased a bottle and began taking it according to directions. Mrs. Phillips' dyspepsia has disappeared and she now eats with a relish.

"You' re my fly-paper" is an affectionate new western idiom.

Narrow Escape.

* * * ROCHESTER, June 1, 1882. "Ten Years ago I was attacked with the most intense and deathly pains in my back —and kidneys.

"Extending to the end of my toes and to my brain!

"Which made me delirious!

"From agony! ! ! !

"It took three men to hold me on my bed at times!

"The doctors tried in vain to relieve me but to no purpose

Morphines and other opiates

"Had no effect!

"After two months I was given up to die ! ! !

"When my wife heard a neighbor tell what Hop Bitters had done for her, she at once got and gave me some. The first dose eased my brain and seemed to go hunting through my system for the pain

The second dose eased me so much that I slept two hours something I had not done for two months. Before I had used five bottles I was well and at work as hard as any man could, for over three weeks; but I worked too hard for my strength, and taking a cold, I was taken with the most acute and painful rheumatism all through my system that ever was known.

"I called the doctors again, and after several weeks they left me a cripple on crutches for life, as they said. I met a friend and told him my case, and he said Hop Bitters had cured him and would cure me. I poohed at him, but he was so earnest I was induced to use them again.

In less than four weeks I threw away my crutches and went to work lightly and kept on using the bitters for five weeks, until I became as well as any man living, and have been so for six years since.

It has also cured my wife, who had been sick for years, and has kept her and my children well and healthy with from two to three bottles per year. There is no need to be sick at all if these bitters are used. J. J. BERK,
Ex-Supervisor.

Prosecute the Swindlers!!!

If when you call for Hop Bitters (see green cluster of Hops on the white label) the druggist hands out any stuff called C. D. Warner's German Hop Bitters or with other "Hop" name refuse it and shun that druggist as you would a viper, and if he has taken your money for the stuff, indict him for the fraud and sue him for damages for the swindle, and we will reward you liberally for the conviction.

FOR THE BLOOD
BROWN'S IRON BITTERS

Combining IRON with PURE VEGETABLE TONICS, quickly and completely CLEANSES and ENRICHES THE BLOOD. Quickens the action of the Liver and Kidneys. Clears the complexion, makes the skin smooth. It does not injure the teeth, cause headache, or produce constipation—ALL OTHER IRON MEDICINES DO.
Physicians and Druggists everywhere recommend it.

DR. N. S. RUGGLES, of Marion, Mass., says: "I recommend Brown's Iron Bitters as a valuable tonic for enriching the blood, and removing all dyspeptic symptoms. It does not hurt the teeth."

DR. R. M. DELZELL, Reynolds, Ind., says: "I have prescribed Brown's Iron Bitters in cases of anemia and blood diseases, also when a tonic was needed, and it has proved thoroughly satisfactory."

MR. WM. BYRNS, 26 St. Mary St., New Orleans, La., says: "Brown's Iron Bitters relieved me in a case of blood poisoning, and I heartily commend it to those needing a purifier."

The Genuine has Trade Mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

LADIES' HAND BOOK—useful and attractive, containing list of prizes for recipes, information about coins, etc., given away by all dealers in medicine, or mailed to any address on receipt of 2c. stamp.

Eczema !

For the benefit of suffering humanity, and in heartfelt gratitude at the wonderful result, I deem it only my duty to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with hereditary Eczema or Salt Rheum from her infancy. It has increased in intensity with each succeeding spring, and being somewhat skilled in medicine myself, I tried every remedy I could think of for years—Sarsaparilla combined with every form of Potassia, "Cuticura," pills of every kind, and hundreds of other remedies, lotions and alkali washes of every known kind, but they all gave only temporary relief. During the spring of 1884 her lower extremities became so inflamed and sore that she was obliged to keep them constantly coated with a cover of "Fuller's Earth," mixed wet and allowed to dry on. Among other things, she was inflicted with a periodical nervous headache, occurring regularly every seven days, sometimes followed by an intermittent fever for weeks at a time, so that her life became a burden to her.

This spring I determined she should take S. S. S. and follow strictly the directions in regard to dose, diet, etc. This was about seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After taking the second bottle the inflammation began to subside. After the third bottle the inflammation disappeared and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white powder resembling pure salt. She is now taking the sixth bottle, three tablespoonful four times daily. Every appearance of the disease has gone, and her flesh is becoming soft, white and smooth again; and what is more, her periodical headaches have disappeared and she is now, at 53 years of age, enjoying the only good health she has known for upwards of 40 years. No wonder she declares with emphasis that every bottle of S. S. S. is worth a thousand times its weight in gold.

Any further information concerning her case will be cheerfully given by herself at her residence, 135 Mullett street, or by me.

The Wabash people have been cutting down forces to a great extent. On six-mile sections only a section boss and one man are left. In their yards the number of employes has been reduced to the lowest limit. Bridge men have all been laid off for thirty days, which effects fourteen men between Indianapolis and Michigan City, most of whom have been on the road twenty-five years or more.

Commencing July 7th, the Wabash will run a Woodruff sleeper on train No. 49, west bound 8:30 p. m. This train has been run heretofore, principally to carry the through mail and express, but has had a combined coach and baggage car attached to faciliate travel between the more important stations. The addition of this sleeper to the train will be a great convenience to the traveling public, as the train is one of the fastest on the road. This train is daily except Monday. The other fast through west bound train, leaves at 6 p. m., daily, and has Mann boudoir cars attached.

Do You Know a Man

Whose wife is troubled with debility nervousness, liver complaint or rheumatism? Just tell him it is a pity to let the lady suffer that way, when Brown's Iron Bitters will relieve her. Mrs. L. B. Edgerly, Dexter, Me., says, "Brown's Iron Bitters cured me of debility and palpitation of the heart." Mrs. H. S. McLaughlin, of Scarborough, Me., says the bitters cured her of debility. Mrs. Harding, of Windham Centre, in the same state, says it cured her of dizziness in the head. So it has cured thousands of other ladies.

Rochester forbids bicycling on her sidewalks.

For over a quarter of a century, physicians have prescribed Nichols' Bark and Iron as a reliable and valuable remedy for dyspepsia and general debility. 8-4w

Patchouly, an herb that grows in India and China, affords an essence which is at present very fashionable.

Parents, Read This.

Parents should always have at hand a prompt and safe remedy for their children in case of sudden attacks of diarrhœa, dysentery, bleeding of the nose, cuts, bruises, sore throat and many cases of a similar kind, in which an hour's delay will often lead to serious if not fatal results. For these complaints the great family remedy, Pond's extract, has been long and successfully used, and always with the same unfailing result. It can be had at any respectable drug store. Be careful to get the genuine.

One lightning bolt slew nineteen cattle under a Springville, N. Y., maple tree.

The use of Iodoform or mercurials in the treatment of catarrh—whether in the form of suppositories or ointments—should be avoided, as they are both injurious and dangerous. Iodoform is easily detected by its offensive odor. The only reliable catarrh remedy on the market to-day is Ely's Cream Balm, being free from all poisonous drugs. It has cured thousands of chronic and acute cases, where all other remedies have failed. A particle is applied into each nostril; no pain; agreeable to use. Price fifty cents; of druggists.

Curious Expulsion of a Parasite.

The so-called "horse-hair snake" is known to be a parasite of the cricket. It becomes active only under water, and a recent interesting statement by Dr. H. C. McCook makes it appear that the crickets themselves are aware of this peculiarity and seek to take advantage of it. A lady was troubled by frequently finding the hair-snakes in her water-pails, and watched to learn how they came there. She soon saw a large cricket mount upon the edge of one of the pails, bring the tip of the abdomen just beneath the water, and, with a few violent throes, expel a black mass, which resolved itself into one of the worms. The cricket seemed much exhausted by the operation.

Too Strong for Him.

A good deacon of one of our city churches meandered along one of the docks Sunday, and, noticing a crowd of boys fishing, he commenced to reprove them for breaking the Sabbath. Human nature was too strong for him.—*Saginaw (Michigan) News.*

Rheumatism Quickly Cured.

There has never been a medicine for rheumatism introduced in Fort Wayne that has given such universal satisfaction as Durang's Rheumatic Remedy. It has the endorsement and recommendation of many leading physicians in this state and elsewhere. It is sold by every druggist at $1. Write for free 40 page pamphlet to R. K. Fort Wayne Paint and Color Works.

No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33⅓ per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1856, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

THE BIG FAIR.

Something About the Forthcoming Exhibition of Our Fair Association.

From the Daily News:

While other counties in this state are struggling with the problem, "how can we make our fair pay?" Allen county is blessed with an association of enterprising gentlemen who say to the community, "give us your reasonable co-operation and we will pay the bills." This arrangement is most highly satisfactory; for it relieves the public of all worry as to the details, and affords assurance that come what may, good weather or bad, the premiums in all classes will be paid, and the exhibitors will have satisfaction. The prospects for our annual exhibition were never brighter than this year, because through good management the association has secured membership in the "Central Fall Trotting Circuit" and the result will be to bring a larger and better field of horses to Fort Wayne than have been present at any previous meeting of the association. The circuit embraces Columbus, Toledo, Dayton, Hamilton and Lancaster, in Ohio, and South Bend and Fort Wayne, in Indiana. A lively interest among owners of fine horses is already shown and it is believed that not less than 200 horses will be entered for the races here.

Five hundred dollars to be reserved for a special purse to be hereafter announced. Entries in trotting and pacing classes close Monday, Sept. 7, at 11 p. m. Entries in the running classes close at 6 p. m., the day before each race.

SIMPLY ALLEGED.

Neighbors Charge that the Babies at Dr. Thayer's Hospital are Treated Cruelly.

People who reside near Dr. Thayer's lying-in-hospital, in the east end of the city, have long murmured about the institution, but till now could find no ground for proper complaint. Yesterday a delegation called on Mayor Muhler and asserted that twelve or fifteen little cherubs are being reared at the infirmary of misfortune and further allege that the babies are treated very cruelly by attendants and young women who are temporarily sojourning with the doctor. An officer was dispatched for Dr. Thayer, who courts investigation. This afternoon Mayor Muhler visited the hospital and, of course, danced the dimpled little children on his knee. He is not yet prepared to pronounce judgment, and will consult Prosecutor Dawson.

FIGHTING THE KNIGHTS.

The Wabash Road and Knights of Labor Fighting for Supremacy.

The Wabash people are determined to manage their own road and are engaging but men who are not hampered by the strict ties of labor unions. Each man is asked to sign an agreement denying allegiance to labor unions and consenting to the hospital assessment. This has aroused the Knights of Labor, and now they are distributing broadcast the following circular:

SIGN THIS!

You slaves of the nineteenth century. Below is a copy of the agreement that is being circulated for signatures, and without which no person is allowed to work on the Wabash:

"I (giving name) do promise to leave the Knights of Labor, all brotherhood organizations, all labor unions, etc., and also agree to willingly pay the hospital assessment, whatever it may amount to.

"EMPLOYE."

The company was led to discriminate by the efforts of the leaders of the Knights of Labor to dictate to the management after the question of wages was settled. This war between the company and labor lodges, however, cannot result in much good. Laboring men have as much right to combine for protection as capitalists.

Sanitary Matters.

The state board of health held a short meeting yesterday at Indianapolis, all the members being present. Dr. Seawright reported as the result of inspection that the northern prison was in excellent condition, and spoke highly of the management of that institution. The real business of the members was to have a joint meeting with the members of the executive committee of the state sanitary society. The latter are: Dr. Sutton, Aurora; Dr. Gatch, Lawrenceburg; Dr. T. M. Stevens, Indianapolis; Dr. N. N. Shipman and Mr. Forsythe, Seymour. The meeting was held during the afternoon, and was for the purpose of securing co-operation in the organization of county saanitary societies throughout the state. A form was agreed on for recommendation as a constitution for these societies.

New Dog Law.

The new dog law does not provide for the turning of unappropriated dog funds into the school fund. If any township trustee shall have more than fifty dollars of dog fund on hand at his March settlement each year he shall turn the surplus over to the county treasurer as a county dog fund. On the second Monday in March the county dog fund shall be distributed and paid out for all the sheep killed in the county. If there is not enough deficiency in the townships it shall be prorated and distributed according to the unpaid orders of all the townships.

Let every business man attend the reunion meeting to night at the superior court room.
